Bernard de Wet

About me

I am currently a 3rd year BSc IT student, graduating at the end of this year. After my first year at university, I received a Golden Key International Honour Society for achieving outstanding academic performance.

I realised the power of technology when I was in matric waitering at a restaurant/bar. I decided to make an app that allows me to create an order list by only clicking on the item buttons. The buttons can be renamed as the menu changes. No more forgetting orders or getting them wrong saved me a lot of time and money!

I have a passion for software development and I love the feeling when you get to look at the software you made or helped develop. Together with my studies, did I do online courses on other programming languages and even tried to start my own app business. I learned a lot and I believe I still have a lot to learn. I did some side jobs along with my studies, like creating apps for people and developing websites and eCommerce stores in WordPress.

Other things I love doing include hunting, gym, being in nature and spending time with friends.

Education

Jan 2018 - Dec 2020

North-West University

BSc Information Technology

I have received a certificate from The Golden Key International Society for having 18 distinctions up to present in university.

I have yet the second semester to finish my degree cum laude.

Experience

Flutter app developer at Specials Fest

I helped developed the app Specials Fest.

I did alot of the programming, app testing and store management on both IOS and Android app stores.

Wordpress website developer at Eternaweb

I developed e-commerce/websites in Wordpress for both local and international companies.

Skill Highlights

- ❖ Flutter
- ❖ C#
- ❖ C++
- ❖ HTML/CSS
- ❖ Java
- ❖ Python
- ❖ React
- ❖ Wordpress

Languages

- ❖ Afrikaans
- ❖ English

Projects

Specials Fest

The company closed but here are the arcives:

https://apkpure.com/specials-fest/com.specialsfest.specialsfest

Metamorpho

Example of a website I designed and made:

https://metamorpho.co.za/

Invoicing app for River Café

I made an invoicing web app in Flutter for a local restuarant.
